TABLE OF CONTENTS

Building the brand to increase awareness, comprehension, enrollment and support

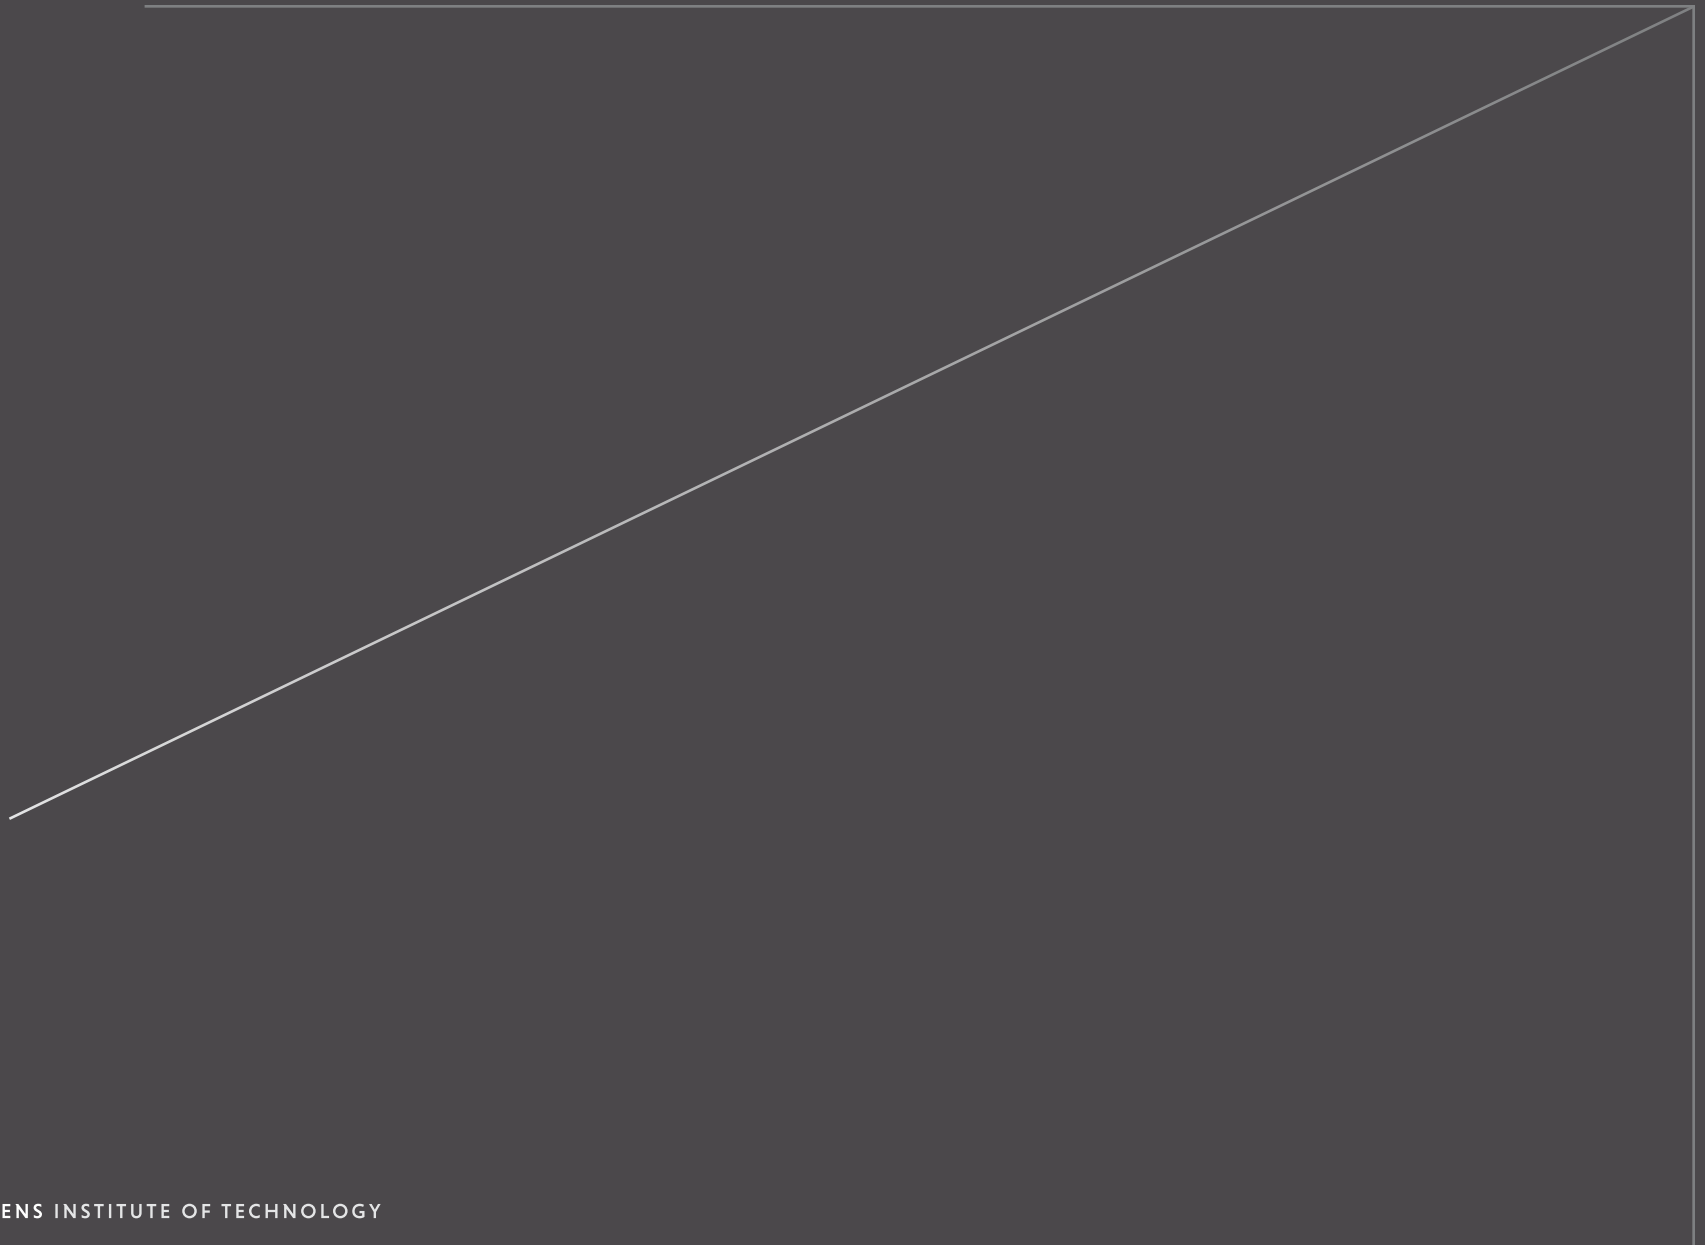

This book establishes the guiding principles for the College of Professional Education's verbal and visual identity. It serves as a foundation for all communications as we advance our mission as a new and impactful offering within the university—one that reflects a forward-looking vision for higher education. By articulating a clear and consistent brand, we strengthen our ability to convey our purpose, share our story, and engage meaningfully with our audiences.

1.0 VERBAL SYSTEM

1.1 Brand hierarchy

Key idea

A bold new education designed for a fast-changing future

Brand pillars

LEGACY + REPUTATION

Expanding and building on 150 years of exceptional technology education

PROXIMITY + PARTNERSHIPS

Employer connected, market driven, future focused

RELEVANCE + AGILITY

A flexible, tailored education that drives competitive advantage

ROI + IMPACT

Delivering the outcomes that drive career success

Audience messaging

B2B

Stevens College of Professional Education delivers the technical skills and fluency that organizations like yours need to cultivate across their workforces. Partner with us, and you tap into a proven leader in technology education. We'll work with you to develop scalable programs that help you effectively upskill, reskill, and elevate your employees. CPE can serve as a strategic partner for talent development and management, helping you build competitive advantage in a dynamic economy and employment landscape.

B2C

Stevens College of Professional Education is for learners who need to build the technology skills and fluency that keep them ahead in a fast-moving economy. Our flexible and highly relevant degrees, credentials, and certificates empower you to create a tailored educational pathway that aligns with your specific needs and goals, and works with your busy life. CPE is a trusted and respected gateway to the tech skills, community, and industry connections that empower you to advance and accelerate your career.

1.1 Brand hierarchy: pillars

LEGACY + REPUTATION

Expanding and building on 150 years of exceptional technology education

For more than a century, Stevens has delivered world-class, technology-focused education that meets the moment. The College of Professional Education is an exciting new chapter - the chance for a whole new generation of working professionals to experience Stevens technology leadership and excellence.

PROXIMITY + PARTNERSHIPS

Employer connected, market driven, future focused

The College of Professional Education is technology-infused, market-driven education shaped by Stevens' close partnerships with the organizations driving today's economy. It's future-focused learning that empowers working professionals to stay ahead in a rapidly changing marketplace.

RELEVANCE + AGILITY

A flexible, tailored education that drives competitive advantage

In a workplace and world moving faster than ever, building new skills is essential, and speed and agility are key. The College of Professional Education is there with flexible, tailored education pathways purpose-built for the unique needs of today's professionals, and the organizations that depend on them.

ROI + IMPACT

Delivering the outcomes that drive career success

The College of Professional Education is much more than courses and credentials - it's a powerful new model centered on giving working professionals at every stage of their careers the unique mix of skills and qualifications they need to excel in today's complex global economy.

1.1 Brand hierarchy: strengths + differentiators

Proven ROI

Your rank as a top 10 school for return on investment is a powerful metric in a competitive marketplace.

Industry partnerships

Stevens' deep partnerships in engineering, fintech, pharma, and defense are a key strength.

T-shaped professionals

Arshad and others talked about Steven's focus on workers with depth in a particular area and breadth of knowledge across disciplines.

Flexibility & modularity

Delivered via Stevens Online, CPE meets the needs of busy professionals with stackable credentials leading to comprehensive qualifications.

Legacy & reputation

Stevens has been on the cutting edge of engineering and technology education for 150 years. Within its niche and region, it is a respected and accomplished player.

Faculty

Students praised Steven's faculty, and noted that the Student/Coach model fosters communication and community, even when offerings are primarily online.

Less siloed learning

CPE promises a learning environment that mirrors today's economy and world: transdisciplinary and boundary-less — with solutions drawing from multiple disciplines and functional areas.

Regional strength

Stevens sits at the heart of a tech corridor that's home to some of the world's most important engineering, tech, and financial firms. This is an inherent strength.

Tailored curriculum

People spoke at length about Steven's ability to customize curriculum to meet the needs of specific corporate partners, making you responsive to the current and future needs of the market.

1.1 Brand hierarchy: audience specific narratives

B2B

The College of Professional Education at Stevens Institute of Technology is a strategic partner for organizations looking to develop talent and drive business results. We work with companies to design and deliver customized, scalable learning programs that align with workforce goals and evolving market needs.

Backed by 150 years of technology education leadership, we bring academic excellence, industry fluency, and operational agility to every engagement—making it easy to launch high-impact learning that builds internal capability and delivers measurable ROI.

B2C

The College of Professional Education at Stevens Institute of Technology offers flexible, future-focused learning for professionals who want to move forward—fast. With programs shaped by industry needs and powered our 150 years of leadership in technology education, we help you build the skills, credentials, and confidence to upskill, reskill, or pivot.

Choose from short courses, stackable credentials, and online formats designed to fit your life. Whether you're looking to break into a new field or grow in your current role, this is education built around your goals—and ready when you are.

Corporate (B2B) messages

WHO WE ARE

- A strategic partner for workforce development
- A trusted and proven resource for top-tier employers
- An expert in delivering customizable and scalable solutions
- A world-class institution with deep technical expertise and business fluency

HOW WE'RE DIFFERENT

- We're a responsive and easy-to-work with partner
- We tailor programs and solutions to your specific needs
- We deliver meaningful ROI through workforce transformation
- We adapt quickly as your business objectives and challenges evolve

WHAT WE BELIEVE

- Our work should drive meaningful benefits and value for employers
- Talent is your most valuable and critical strategic asset
- A great workforce development partner handles the heavy lifting
- A university partner must earn its seat at the table

End-learner (B2C) messages

WHAT WE ARE

- A bold new take on professional education
- A trusted name that's more relevant than ever
- A model that's designed around your goals
- A bridge that connects workers and industry

HOW WE'RE DIFFERENT

- We're a market responsive, professional-focused education engine
- We connect learners with some of the world's leading employers
- We're making deep tech more practical and relevant
- We empower learners to build their own unique education

WHAT WE BELIEVE

- Tech fluency is essential across every industry
- If you're not keeping pace you'll be left behind
- Professional learners need a different kind of education
- Career advancement is the true measure of our success

1.3 Voice + tone

Voice and tone are how the College of Professional Education speaks, constructed through style elements: vocabulary variations, rhythm, mood, and structure.

Our voice

Voice is character: it describes how we, as a community, feel and act. And it's how we personify the relationship with our online audiences. Our voice is consistent across platforms and use cases.

BOLD AND FUTURE FACING

We're excited that we've created something exciting and new. Our voice reflects that ambition. We are excited, energized, and focused on what the future holds and the role we'll play in it.

QUIETLY CONFIDENT

We've been leaders in technology education for more than 150 years, and we know we're good. We don't boast or brag, but our voice carries a confidence and authority that comes from more than a century of experience.

DEEPLY PRAGMATIC

The pace of change is dizzying, and both professionals and organizations need effective solutions for navigating today's workplace. We view everything through a lens of outcomes and impact, because we haven't succeeded until we've helped others do the same.

SMART AND RIGOROUS

There's a practical, results-driven ethos to what we do at the College of Professional Education, but it's anchored by serious scholarship and talented, respected faculty. We are, at our core, an institution that very much values rigorous academics.

MOTIVATING AND SUPPORTIVE

Our voice reflects a sense of possibility. We believe in the professionals and organizations who we work with, and want them to feel energized, excited, and hopeful as they look ahead.

Our tone

Tone is mood: it is how we sound. Just as our tone of voice changes based on circumstances and environment, our tone might shift a bit to suit the content we're creating, the audience we're speaking to, or the platform we're using to communicate.

PROFESSIONAL AND RESPECTFUL

We speak to capable adults with complex lives and goals. Our tone is competent, clear, and considerate—never condescending, overly casual, or uncomfortably scripted.

CLEAR AND DIRECT

We don't waste words. We're honest, to the point, and easy to understand—whether we're describing a credential or a strategic workforce solution.

ENERGIZING AND EXCITING

We help people see what's possible, and give them reasons to believe in the future they're building. Our tone energizes and propels.

INSPIRING AND ENCOURAGING

We recognize that education is a big investment. Our tone reflects care, confidence, and encouragement—especially in moments of decision.

DOWN TO EARTH AND INTENTIONAL

Our tone reflects intention. We speak with clarity about where this education leads and how it aligns with real goals—for individuals or organizations.

1.3 Our tone

Our tone will shift depending on which audience we're communicating with...

CORPORATE/B2B-FOCUSED

Up-skill your team with a proven tech leader

For 150 years, Stevens Institute of Technology has prepared professionals for what's next. Our new College of Professional Education delivers flexible, tech-forward programs in the disciplines shaping today's economy. We'll work with you to create a solution customized to address your specific objectives and pain points, one that delivers real results to your organization.

Partner with Stevens and turbocharge your workforce.

Web

END-LEARNER/B2C-FOCUSED

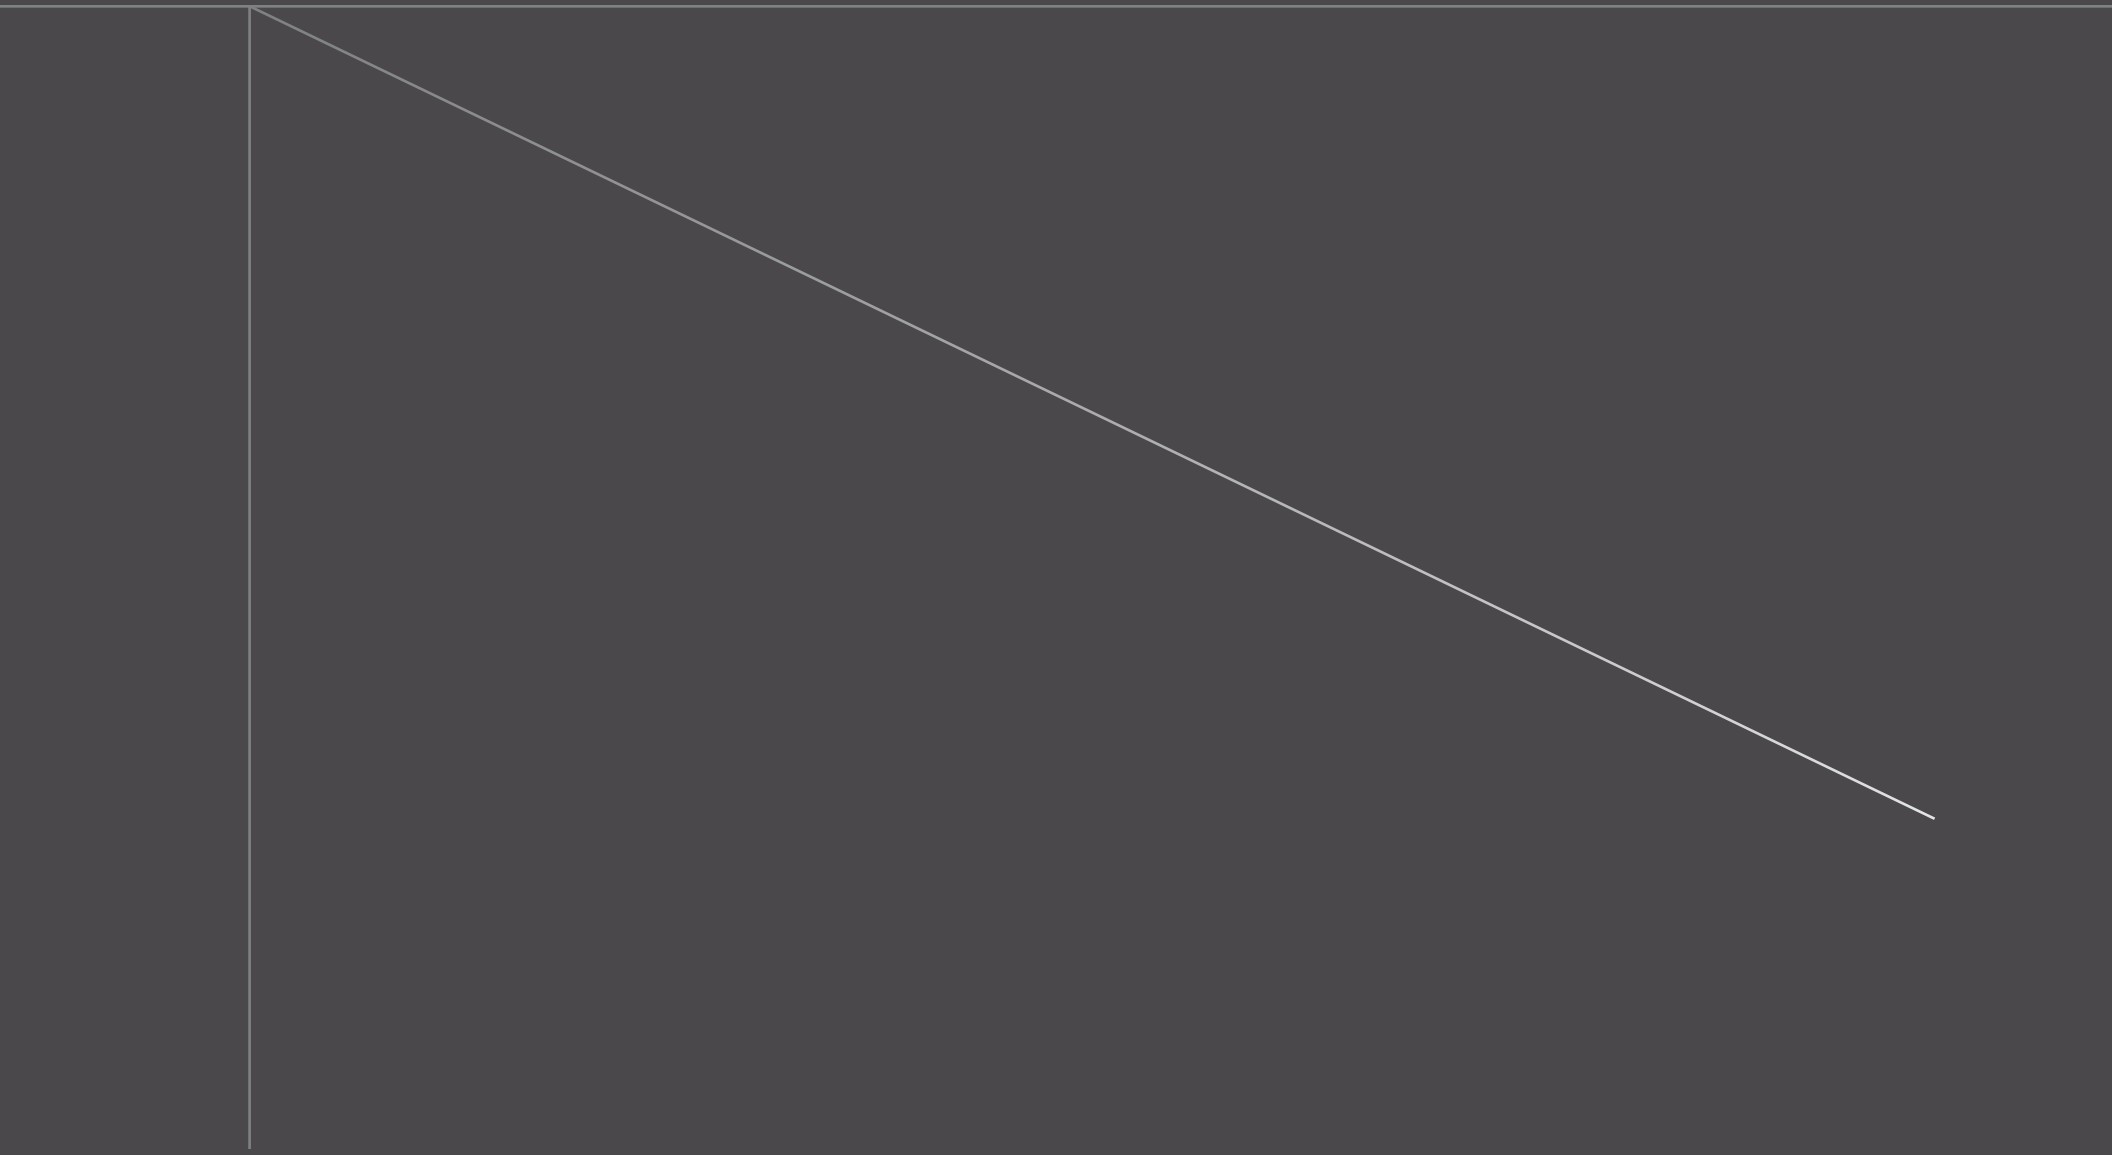

Technology-driven, market focused education designed for professionals.

The College of Professional Education is a new kind of professional education, designed for a world that's moving faster than ever. Our future-facing programs deliver the real-world skills, deep tech fluency, and immediate career impact that today's professionals need to stay ahead.

With flexible courses, stackable credentials, and convenient options that work with busy schedules, this is an education you can truly tailor to your unique needs and career goals. It's powered by Stevens' 150 years of leadership in technology education, and our close partnerships with the employers sitting at the heart of today's innovation economy.

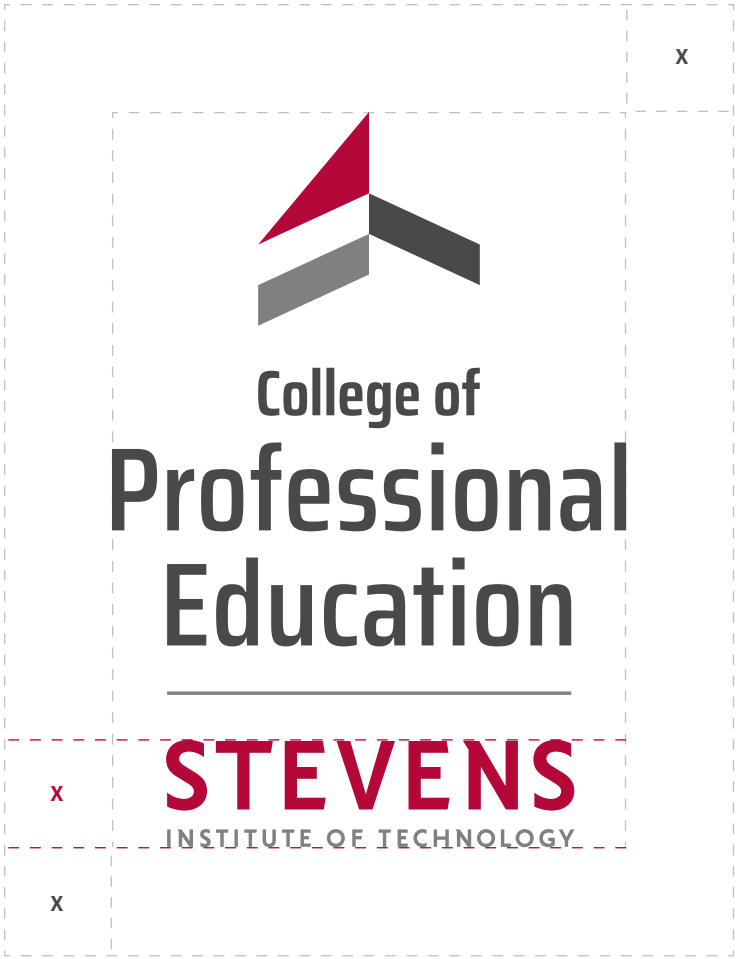

This is a different kind of education. A new, better way for professionals to build the skills, confidence, and connections they need to excel in today's workplace and move their careers forward.

2.0 VISUAL SYSTEM

2.1 Primary identifier

The primary identifier is comprised of a logo, wordmark, and the Stevens Institute wordmark. This identifier is the foundation of the college's brand identity. Using our identifier consistently and thoughtfully across all communications strengthens the connection with our audiences and helps convey the values that define the college.

Use the height of "Stevens Institute of Technology" to define the clear space.

CLEAR SPACE AND MINIMUM SIZE

To maintain visibility and recognition, always allow the required clear space around the identifier. This ensures that our brand mark remains unobstructed by surrounding text, graphics, or symbols. The identifier should never appear smaller than the designated minimum size for both print and digital applications.

1.5" OR 150PX MINIMUM

The primary identifier must not be reproduced smaller than 1.5" tall for print or 150PX tall for digital display. When a smaller size is required, please use the abbreviated logo found on the next page, or email branding@stevens.edu for guidance.

2.1 Secondary identifiers

In addition to the primary lockup, secondary identifiers have been created to ensure flexibility across a wide range of applications. These include a horizontal version for use in narrow or elongated spaces, as well as an abbreviated version for situations where the full lockups cannot be accommodated. Both variations have been designed to preserve brand recognition and visual integrity while maintaining consistency with the primary mark.

HORIZONTAL IDENTIFIER

Use the height of the "P" in Professional Education to define the clear space.

2.5" OR 250PX MINIMUM

The horizontal identifier must not be reproduced smaller than 2.5" wide for print or 250PX wide for digital display.

ABBREVIATED IDENTIFIER

Use 2x the height of the "Stevens" wordmark define the clear space.

.5" OR 50PX MINIMUM

The abbreviated identifier must not be reproduced smaller than .5" wide for print or 50PX wide for digital display.

2.1 Identifier color variations

The identifier must always remain clear and well-defined. To facilitate this, positive and negative versions of the identifier have been produced to guarantee sufficient contrast with varying backgrounds. A complete set of marks, including single-color adaptations, is available in the logo library.

POSITIVE

NEGATIVE

SINGLE-COLOR

FULL-COLOR VARIATIONS

The full-color iterations of the identifiers contain three colors. Always use the option that best contrasts the color, image, or substrate it sits upon.

SINGLE-COLOR LOGOS

Single-color versions should be used when a background doesn't provide enough contrast for the full-color versions' three hues. This version may also be used where production techniques are limited, such as a single-color print or an embroidered patch.

2.1 Identifier: don’ts

Inconsistent or inappropriate modification of our identifiers outside of these guidelines will dilute the brand and make it harder for people to recognize, understand, and value the college. The rules outlined here apply to all College of Professional Education identifiers defined on the previous pages.

College of
Professional
Education
STEVENS
INSTITUTE OF TECHNOLOGY

DON’T use unapproved colors or color combinations for any identifier.

DON’T use any identifier on colors or images that do not provide enough contrast; always be sure an identifier is legible.

College of
Professional
Education
STEVENS INSTITUTE OF TECHNOLOGY
FALL 2025 SEMESTER

DON’T create new typographic configurations of an identifier, or append modifiers.

COLLEGE OF
PROFESSIONAL EDUCATION
STEVENS INSTITUTE OF TECHNOLOGY

DON’T recreate any identifier with alternate typography, even if it is a brand typeface.

College of
Professional
Education
STEVENS
INSTITUTE OF TECHNOLOGY

DON’T stretch, compress, tilt, rearrange, or resize the elements of any identifier.

College of
Professional
Education
STEVENS
INSTITUTE OF TECHNOLOGY

DON’T add embellishments of any kind, including gradients, drop shadows, stroked outlines, or photographic fills.

2.2 Typography

To distinguish the college and more accurately reflect our goals, the College of Professional Education brand uses a specific subset of typefaces from the larger Stevens typographic palette. Consistent application of this refined set will enhance brand recognition and allow the college to communicate with a unique voice.

All brand typefaces are available for free on fonts.google.com.

For situations when brand fonts are not available because of software restrictions, Arial and Arial Narrow are acceptable substitutions.

Saira Regular + IBM Plex Sans

SAIRA REGULAR

Only the Regular width of Saira is allowed in CPE communications. In addition, while the entire range of weights is available, headlines and subheads should always use one of the three lightest weights in the family.

Saira Thin & *Italic*
Saira Extra Light & *Italic*
Saira Light & *Italic*
Saira Regular & *Italic*
Saira Medium & *Italic*
Saira SemiBold & *Italic*
Saira Bold & *Italic*
Saira ExtraBold & *Italic*
Saira Black & *Italic*
1 2 3 4 5 6 7 8 9 0

IBM Plex Sans serves as the supporting font family for all CPE communications. It should be used when smaller typography is needed; areas like body copy or website button titles.

IBM PLEX SANS

IBM Plex Sans Thin & *Italic*
IBM Plex Sans Extra Light & *Italic*
IBM Plex Sans Light & *Italic*
IBM Plex Sans Regular & *Italic*
IBM Plex Sans Medium & *Italic*
IBM Plex Sans SemiBold & *Italic*
IBM Plex Sans Bold & *Italic*
1 2 3 4 5 6 7 8 9 0

IBM PLEX SANS CONDENSED

IBM Plex Sans Cond. Thin & *Italic*
IBM Plex Sans Cond. Extra Light & *Italic*
IBM Plex Sans Cond. Light & *Italic*
IBM Plex Sans Cond. Regular & *Italic*
IBM Plex Sans Cond. Medium & *Italic*
IBM Plex Sans Cond. SemiBold & *Italic*
IBM Plex Sans Cond. Bold & *Italic*
1 2 3 4 5 6 7 8 9 0

2.2 Typography: variety, contrast and intention

When crafting written and visual communications, aim to build clear, intentional, and easily scannable hierarchies. The college's unique approach to typography enables the creation of purposeful structures, whose range and contrast guide the audience seamlessly through the content — making information easy to navigate and understand.

USING TYPOGRAPHY TO BUILD BRAND

Intentional use of typography allows the brand to communicate in a clear and distinct manner. The lightest weights of Saira Regular bring a refined, future-facing presence to headlines and titles. As our primary typeface, it should be featured prominently to establish a cohesive and contemporary visual voice across communications. IBM Plex Sans, with its clean and highly legible design, is best suited for large fields of body copy.

Considered use of color can help establish hierarchies in dense blocks of information, and adds visual interest.

"

Consed quae lorem sit utent, imusti elas doloritatur assus it et elas volut quidelos exceatiusam resequo officim lorem.

QUOTE ATTRIBUTION NAME
Quote attribution title

LOREM IPSUM DOLOR SED AMET

Lorem ipsumolin dolor sit amet

Consistent use of the lightest legible weight of Saira Regular for headlines will help all of our communications speak in the same visual tone.

Picipsu mquaepudae porate non ea quibus

Peles aut est, quia natat mo vitia doluptatem apienihil ipsaperumque venient quam nimetumqui omni od que volore ex escitat quidunt. Uscium doluptatio quisque et qui ut essint, sunt ratur, que quis maio temporum quae magnihiciis doloreped mil ium ut accat.

Dramatic shifts in size can produce dramatic shifts in hierarchy.

Quas doluptas nonse quam, utasitiur, sinia vidunt, venihil luptatet laccum quae. Xerum autemporem ut occus exerum fugiaestis porit omnim quatur molum reped ut laniatatis sime ex et quae minulpa quam eseque.

Imo exeribus auta dolorem renet

Blaccus et volorrum estrumqui abor moluptas quatem fuga. Ehenis everibeaquos *voloreicia cum, adio volupta dendisin es quo mi, inullitas* dolorecabo. Solorro vitibus doluptas modi offic toriore poribus dandio con perum voluptatem alit, etur, saperum, sinctium re que ni odita quunt fugitae sin con parum as voloritas ad queum quunt, conseri onsequaes endus, inctatqui con et quias utempor ibustia. Ehenis everibeaquos voloreicia cum

Combining distinct weights and styles of IBM Plex Sans and Plex Sans Condensed make it easy to establish subtle shifts in hierarchy.

2.2 Typography: don’ts

Our typographic guidelines establish a unified voice while upholding high standards of legibility and clarity. Adhering to these principles ensures visual consistency and creates a clear, engaging reading experience. The following “don’ts” outline practices that should be avoided to maintain this standard.

DON’T

set type that is too light or too small to read.

Always keep legibility in mind when choosing type styles and sizes.

DON’T

use multiple colors in one block of typography.

Using too many colors in a single block of text creates excess noise and an unpleasantly staccato reading experience.

DON’T

use force justification for body copy.

In most cases, force justifying text will create inconsistent typographic layout, awkward spaces, and will make reading more difficult.

DON’T

use drop shadows in an attempt to increase legibility.

Avoid adding drop shadows or outer glows to typography. These extraneous effects often make the type appear muddy and have a more “retail” sensibility.

DON’T

sporadically use ALL CAPS for EMPHASIS.

When used within headlines or running text, this is the typographic equivalent of SHOUTING at our readers.

DON’T

add unnecessary embellishment to typography

Gradients, strokes, photographic fills and other overly-stylized embellishments detract from our message and look immature.

DON’T

excessively track out lower case letters

Too much letter spacing in large fields of copy creates an uncomfortable reading experience.

DON’T

obscure the typography with visual gestures.

Use care when combining our visual gestures with blocks of copy or headlines. Legibility is paramount.

2.3 Color palette

Color plays a vital role in expressing a cohesive visual identity. Our brand relies on a focused palette — Stevens Red, the gray tones from the university brand, and black and white. This distilled range ensures clarity, consistency, and a strong visual link to the Stevens community. Always apply the specified color formulas when creating new materials to preserve accuracy across all communications.

STEVENS RED
C**0** M**100** Y**63** K**29**
R**163** G**38** B**56**
HEX**#A32638**
PMS Coated: **201 C**

C**0** M**0** Y**0** K**11**
R**228** G**229** B**230**
HEX**#E4E5E6**
PMS Coated: **Cool Gray 1 C**
PMS Uncoated: **Cool Gray 1 U**

BLACK

WHITE

The CPE brand places greater emphasis on the use of black and white to create an impactful and modern aesthetic. This restrained use of color allows typography, imagery, and content to be the focal point.

When appropriate, variations in the opacity of gray and black tones may be used to introduce subtle shifts in hierarchy and to ensure sufficient typographic contrast. Never use opacities of Stevens Red.

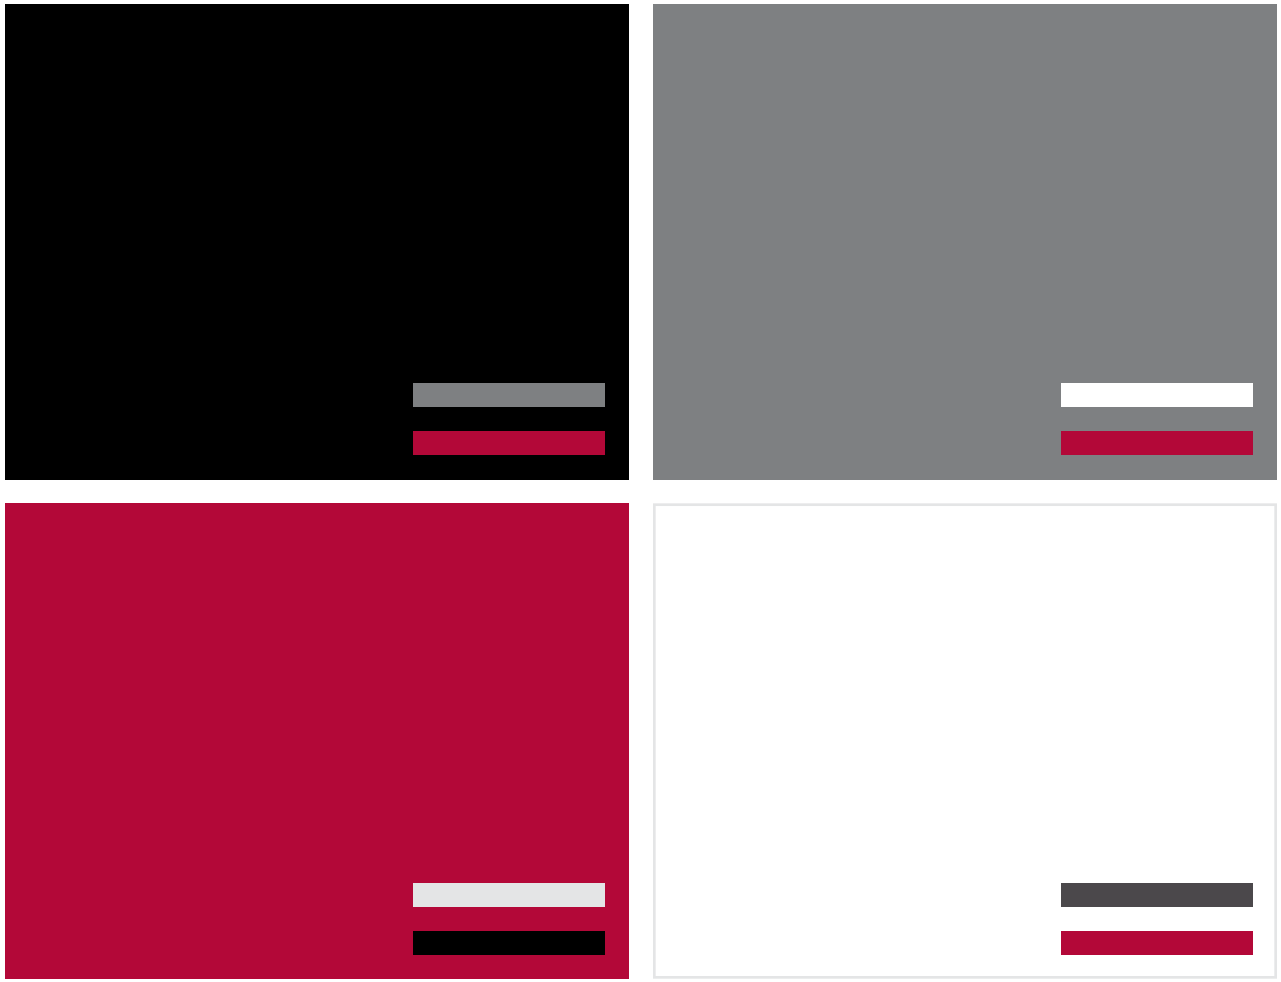

2.3 Color palette: serving suggestions

The College of Professional Education brand doesn't have a suite of secondary colors that can be used to modulate the tone of a communication. Instead, the brand relies on large, full-bleed fields of color and smaller pops of contrasting colors to create more striking compositions.

Tone can be adjusted by selecting a background color that best support the message and intent of a communication. This refined and intentional use of color allows imagery, typography, and composition be the primary drivers in expressing affect and meaning to the audience.

USING THE PALETTE

When selecting a background color, consider what tone and message is being expressed by the communication. Each brand color can reinforce a different character: black delivers a bold and impactful presence; gray is inviting and balanced; red is eye-catching and confident; and white conveys elegance, clarity, and simplicity.

2.3 Color palette: don’ts

Inconsistent or improper use of colors within the approved palette — or the introduction of unapproved colors — weakens the college’s brand, diminishes recognition, and can compromise legibility. The following examples illustrate common misuses of color that should be avoided to preserve the integrity of the brand.

DON’T use colors that are not in the official brand palette.

DON’T use gradients on background colors. Never use effects on any element of a composition.

DON’T set type in colors that lack clear, strong contrast ratios. Legibility is paramount when communicating on behalf of the college.

DON’T pair colors without sufficient contrast in value, as this creates unsightly “vibrations” and harms legibility.

DON’T use too many colors in the same composition. Multiple colors across different pages or screens helps add depth to narrative. Multiple colors in one specific area creates confusion.

2.4 Gesture: asterisms

One of the most important elements of the CPE brand is the intentional creation and deployment of “asterisms.” These are an evolution of the “star and line” gesture found in the Stevens brand, designed to reflect the elevated and future-oriented nature of CPE.

Asterisms are not just a captivating and recognizable gesture for the brand. These intersecting lines create depth and dimensionality, and provide a framework that holds a communication together. Asterisms can separate or connect content, guide a viewer’s eyes to an important message, or provide visual narrative.

The lines should speak to the composition; note how the top of this line is aligned with the title of the page at the left.

The rightmost edge of this line is 100% black, giving the line strong directionality and leading the eye off the page.

- **CREATING AN ASTERISM**

  Asterism lines are always as thin as possible without losing legibility. They are commonly around 1px/pt.

- Lines only ever appear at 0°, 90°, 25°, and -25° angles. The two 25° angles reflect the angles found in the CPE logo.

- There should only be one main asterism per composition. Multiple discrete asterisms on one surface weakens their impact / efficacy.

- The main intersection of an asterism should have a minimum of three “rays” extending out from its center. The maximum number is five.

- At least one of the lines in an asterism should incorporate a gradient effect. This can be used to fade a line so it disappears, creating visual depth. It also can be used to make a line bolder, drawing the audience’s eyes to a different part of the composition.

- Asterisms should only ever be black, grey, or white. Never make an asterism with Stevens Red.

Note that regardless of terminal color, where the lines intersect is always the same color.

Placing a logo, imagery, or copy near the terminal of a line draws the eyes to that element, like an arrow.

Fading a line so it disappears creates a sense of dimensionality

The asterism above has the maximum number of five “rays” extending from its center. The asterism in the footer below has the minimum number of three.

2.4 Gesture: asterisms + imagery

The interplay of asterisms and imagery adds more depth, narrative, and impact to CPE communications. There are three separate methods that can be used to achieve optimal results for the brand.

DIMENSIONAL IMAGERY

Lean into the 3D effect created with asterisms by using image containers that have a positive or negative 25° angle. These containers can then be layered within the lines of an asterism and overlap other containers to make bold and dynamic compositions.

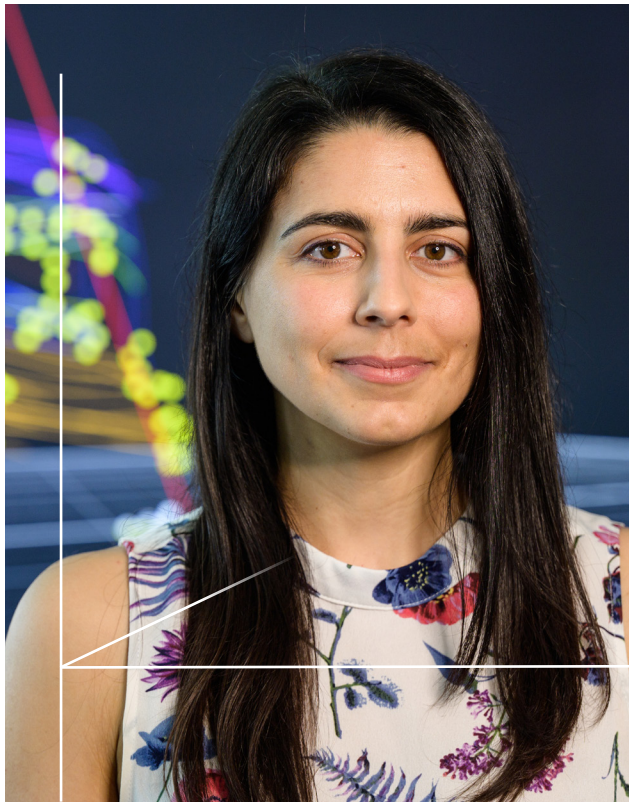

ASTERISM AS FRAME

A simple way to incorporate imagery is to fill one quadrant of an asterism with an image. Always have the image bleed off the edges of the composition with the associated lines. Never fill multiple quadrants with imagery.

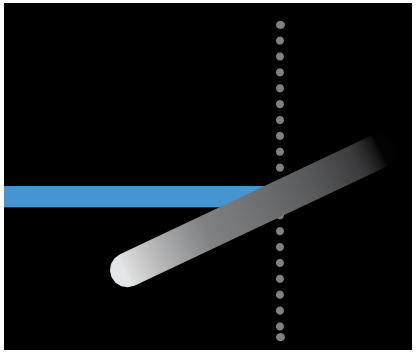

IMAGE BACKGROUND

Full-image backgrounds are an impactful way to capture our audience's attention. An asterism may be placed over an image, provided care is taken to ensure its lines do not interfere with the image's subject or overall composition.

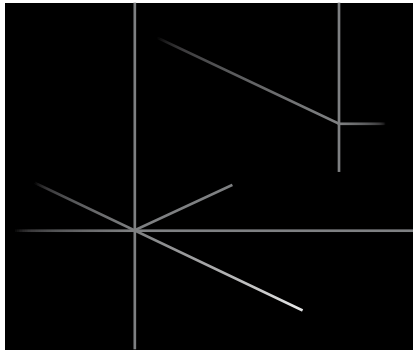

2.4 Gesture: don’ts

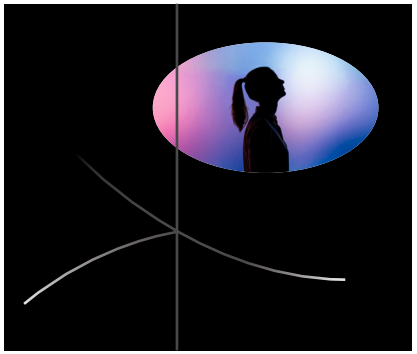

Our visual gestures are intentionally designed to reflect the College of Professional Education’s mission and strengthen its reputation. Do not introduce new gestures that alter the established visual language or create inconsistency in the brand’s representation.

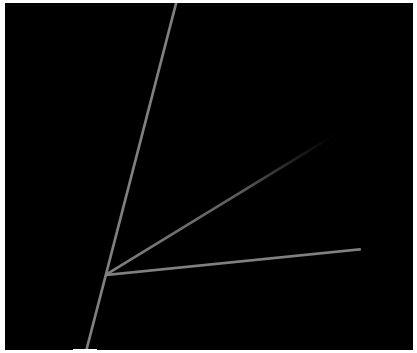

DON’T make the asterism’s lines bold, use different (or off brand) colors, or style the lines to be anything other than solid.

DON’T create complicated asterisms with too many lines. Or have multiple asterisms in one composition.

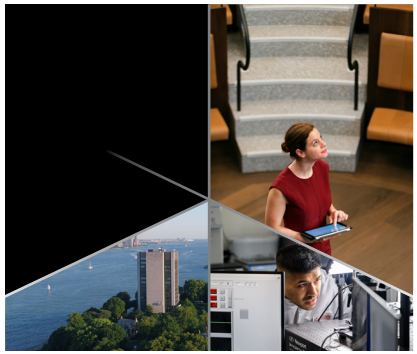

DON’T curve any lines or shapes in CPE’s visual system.

DON’T introduce new angles to the system, or rotate the asterisms.

DON’T angle or skew the image that sits inside a dimensional frame.

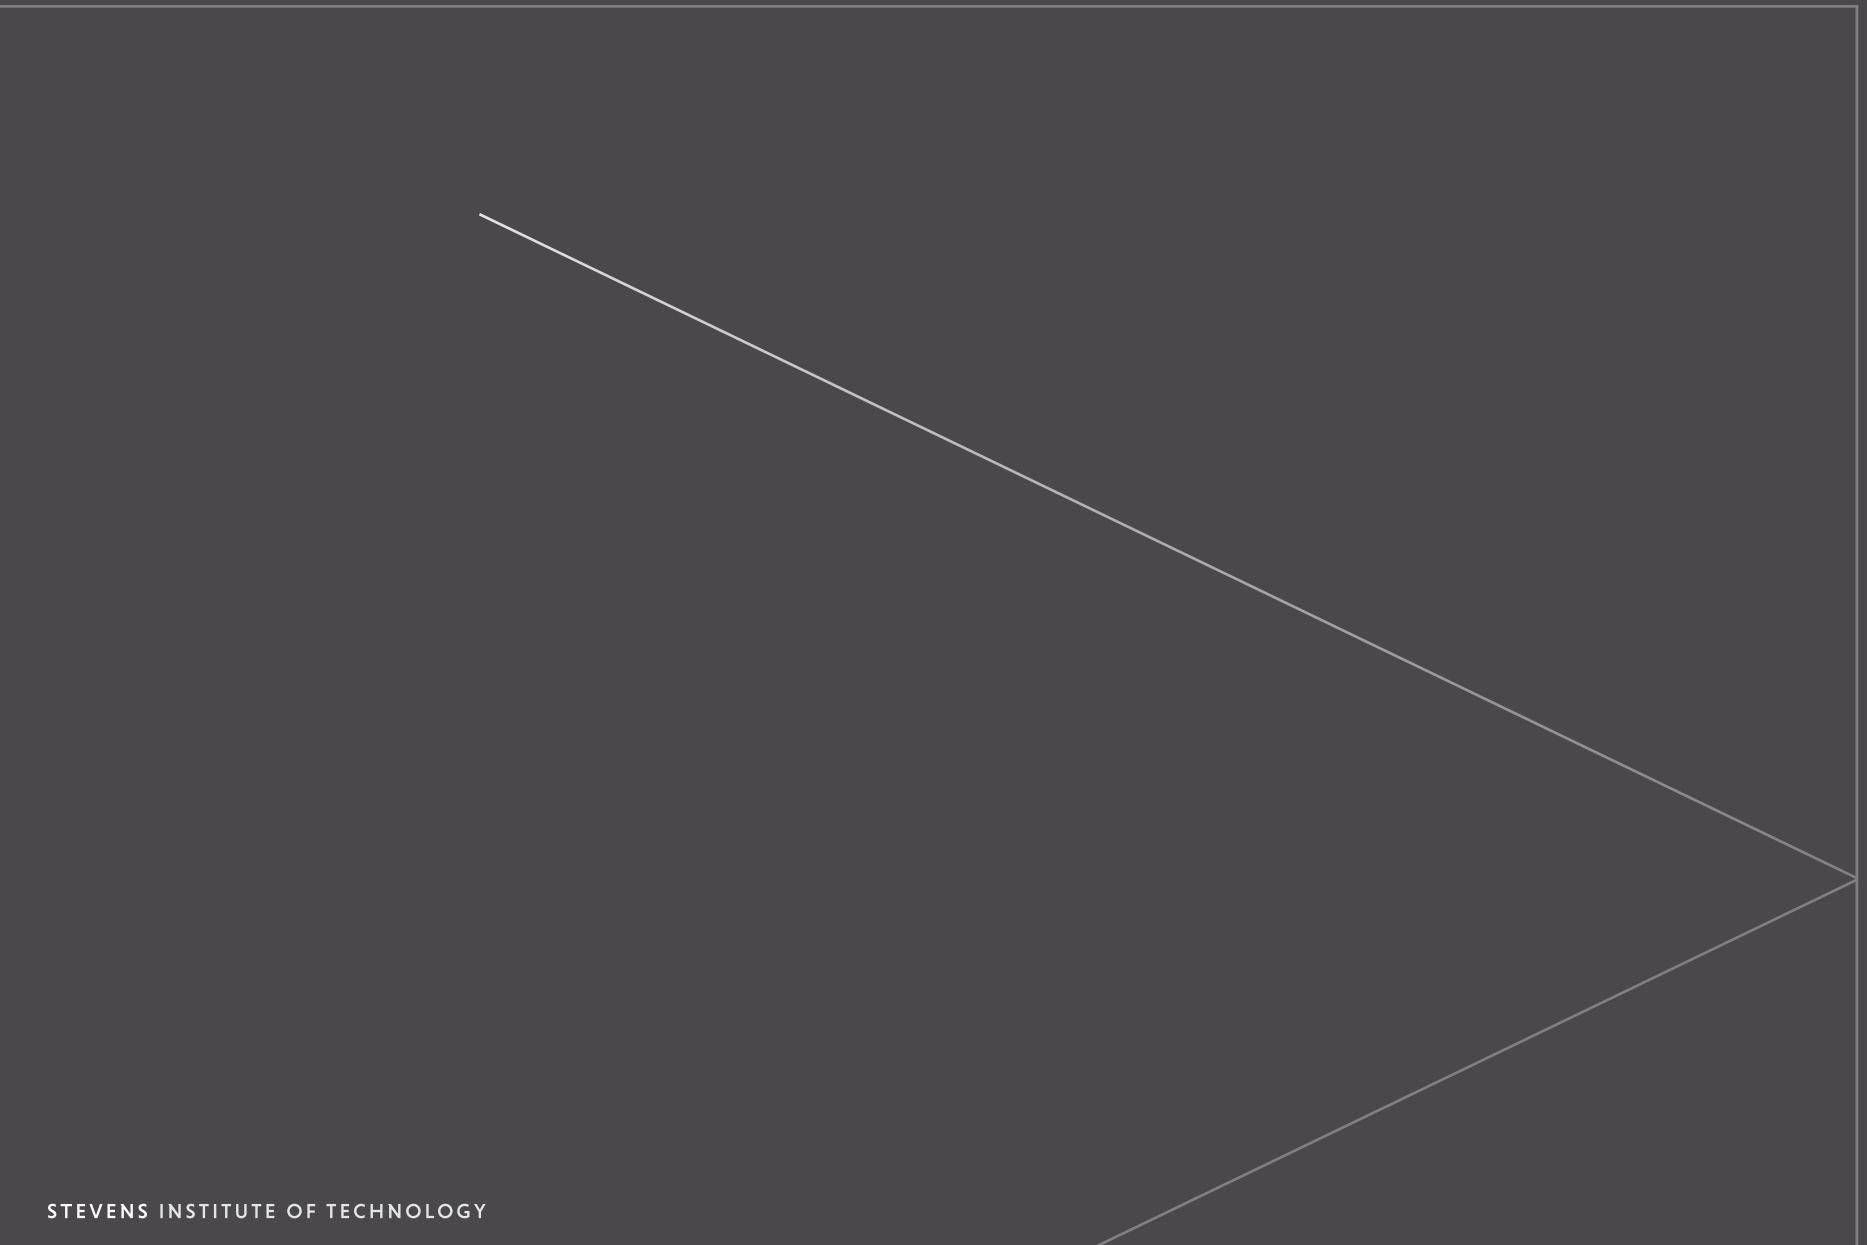

DON’T fill multiple quadrants of an asterism with imagery, as this makes a patchwork effect that lacks elegance.

DON’T have asterisms obscure the subject matter in an image. Lines should never cut across a person’s face or neck.
